

Mesh Seat Installation

1. Lay the Seat Frame on the Mesh as shown in Fig. 1

Fig. 1

Nose Strap

2. Loop the nose strap over the frame support and wrap around the post, under the frame support, Fig 2.

Fig. 2

Continue the strap back over the frame support and through the buckle to secure the strap as shown in Fig. 3.

Fig. 3

3. Insert the top of the seat frame rails into the pockets on the seat fabric. Fig. 4

Fig. 4

4. Pull the Back Straps through the buckles, Fig. 5, and secure loosely to the velcro. Fig. 6.

Fig. 5

Fig. 6

5. Affix the Base Strap, making sure the nose of the seat base is centered over the nose support. Recheck the Back Straps to make sure they are securely tightened. Fig. 7.
